

# FOUNDATION ACADEMY

## Foundation Academy

1050 Wyandotte Avenue  
Mansfield, OH 44906  
419-526-9540

Creating and maintaining a safe school environment is a priority for the Foundation Academy School. A very important part of that safety is developing and practicing responses to an incident at school.

Weather events, fire, accidents, earthquakes, and other threats to student safety are scenarios that are planned and trained for by students, teachers, staff, and administration, in partnership with first responders. Our safety committee meets regularly to review and enhance safety practices, emergency readiness and response. We routinely conduct fire drills, earthquake drills, missing student drills, lockout drills, and lockdown drills to be better prepared for emergencies.

In each room on campus, you will find exit procedures near the door. This resource includes a map and evacuation routes, and provides detailed information and procedures for:

- Medical/injury emergencies
- Emergency allergic reactions
- Cardiopulmonary resuscitation emergencies
- Earthquakes
- Volcanic eruptions
- Fires
- Lockdown/Lockout

## School Closures / Early Release

In the event of an emergency, parents/guardians will be informed of current conditions through our Facebook Page and Foundation website. We will also use this to notify parents/guardians of school delays and closures due to inclement weather.

If a parent, guardian, or authorized designee cannot pick up their child following an emergency, the child will remain under staff supervision until the parent, guardian, or authorized designee arrives at the School. Supplies are in place to make students and staff as comfortable as possible during this time.
