*KRA-R: Public school districts and community schools are required to administer the Ohio Kindergarten Readiness Assessment Revised (KRA-R) to all first-time kindergarten students at the beginning of each school year. The KRA-R measures school readiness based on Ohio's Early Learning and Development Standards (birth to kindergarten entry). The assessment measures a child's knowledge and abilities across four areas: Social Foundations, Language and Literacy, Mathematics, and Physical Well-Being and Motor Development.

*i-Ready Diagnostics: *i-Ready* was designed to get students excited about learning, as well as, to support teachers in the challenge of meeting the diverse needs of all learners in the classroom. Developed by educators, for educators, *i-Ready* engages the students and equips the teachers with the necessary tools to ensure all learners are on the road to proficiency.

*State Air Tests: Ohio's State Tests measure student progress toward Ohio's Learning Standards. These Tests help make sure every Ohio student is receiving a high-quality education. The results show that students have the knowledge and skills they need to move successfully to their next grade level.
